

What if ...

different CAD files could be interchangeable without manual conversions and also outside of your own field of expertise?

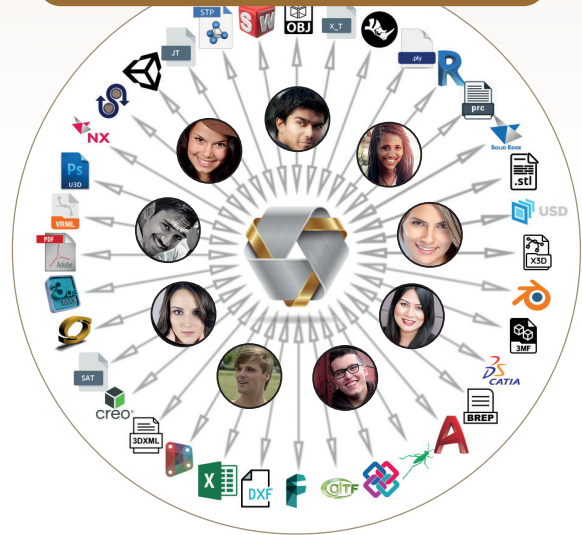

CURRENT SITUATION

- Limited interchangeability, limited collaboration
- Export, zip, import, convert files etc.
- Prone to errors, insufficient speed

DESIRED SITUATION

- Time and focus for expertise (again)
- Better collaboration
- Efficiency

GIMpro is a technique that accelerates and improves collaboration

What does it do?

GIMpro gives projects an advantage. Where project team members previously worked with different file types, GIMpro brings a breath of fresh air. This results in satisfied teams and higher-quality output.

Advantages

- ➔ insight
- ➔ better overview
- ➔ fewer errors
- ➔ time savings
- ➔ efficiency
- ➔ savings
- ➔ teamwork

How?

Make an appointment for a no-obligation exploration and discover how GIMpro accelerates and improves collaborations, resulting in significant savings.

For whom?

All engineers and designers working with CAD files.
